 Bungalow Row Riverside Path

When spring comes,  
 Nami Island is covered in flowers,  
 In summertime, the river winds blow  
 through the shady woods.  
 In autumn, the fallen leaves carpet the earth,  
 While in winter the island is transformed into  
 a world of icicles and snow.

This 460,000 square meter island,  
 embroidered with breathtaking gardens and woods,  
 Is where the walking paths greet the sunrise and sunset.  
 These are the most beautiful gifts  
 that Nami Island gives to her visitors.

NAMINARA REPUBLIC

영어 ENGLISH

Situated 63km from Seoul in the middle of the Han River, Nami Island looks like a leaf floating gracefully on top of Cheongpyeong Lake.

The island has an area of 460,000m<sup>2</sup> and a circumference of 5km. Formed with pebbles and sand, there are no mountains in the island, but there are trees tall enough to touch the sky. Wide grassy gardens where ostriches, rabbits, squirrels, ducks and countless types of birds flourish. Nami Island is a place where not only nature but also human beings can coexist.

Nami Island was named after General Nami, a notable figure in Korean history who courageously fought in battles but died at the age of 26.

Seasonal rain used to transform this land into an island, and with the construction of Cheongpyeong dam, it is now an island all year long. In 1965, thousands of trees were planted by Mr. Byeong-Do Minn.

Today Nami Island is a place for rest and relaxation. Human beings, animals and trees share peace, love and harmony far away from crowds and civilization.

# Welcome To Naminara Republic

## Main Facility

As Nami Island is a Unicef Child-Friendly Park, smoking is only allowed in designated area.

Years ago Nami Island declared its cultural independence and became Naminara Republic. We are a micro-nation and our exports are mainly imagination and fairy tales.

National Flag    Commemorative Stamps    Currency 'Nami Tongbo'
